

TOTAL Workforce TRAINING

The Total Workforce Training course is designed to provide the environmental awareness training that is required for ISO 14001 certification.

Objectives

By the end of the 2 - 3 hour course delegates will:

- Be aware of the types of environmental impacts
- Know how the three environmental media can become polluted
- Recognise companies' impacts on the community
- Appreciate the need to conserve resources
- Understand the key aims of environmental legislation
- Know your own organisation's policy, objectives and environmental impacts
- Be aware of their roles and responsibilities
- Be motivated to consider waste minimisation

The Aspects International Approach

As a world leader in environmental training, Aspects has an interactive approach for this course which makes learning fun. The key features of the course are:

- Structured to cover the key environmental issues
- Tailored to your own needs using your information
- Interactive and enjoyable to attend
- Applicable to different levels in the organisation
- Offers practical advice
- Generates enthusiasm to tackle environmental issues

The course is normally delivered to groups of around 16 to ensure full participation by everyone.

Participants

The course is designed to be applicable to everyone within an organisation involved with ISO 14001. The tutors adapt the course to suit different levels of understanding and knowledge as part of the tailoring.
